Clay City	13	1200CST 1300CST			0	0			Flash Flood
-----------	----	--------------------	--	--	---	---	--	--	-------------

CO-OP Observer reported water flowing across Wilcox Road.

#### ILZ063-068-073

<b>Clark - Crawford - Lawrence</b>									
	15	1400CST			0	0			Flood
	20	1600CST							

The Wabash River climbed to record or near record levels in many locations along the Illinois/Indiana border. On the afternoon of the 15th, a levee breach was observed just north of Darwin, in eastern Clark County. Water from the Wabash River surrounded the towns of York and Darwin, and the only way to get to these towns was by boat. The river flooding required the evacuation of around 100 people from the town of Hutsonville in Crawford County. The flood waters washed out a bridge on Robinson-Marshall Road in Crawford County. The river came within a foot of overtopping a levee in eastern Lawrence County. A major levee failure on the Indiana side of the Wabash River caused the flooding on the Illinois side of the river to be less severe than it may have been.
